About Us

CMV Fresh Cuts is a fully integrated flower growing and export company — managing everything from cultivation and harvesting to packaging and global delivery, ensuring consistent freshness and quality every step of the way.

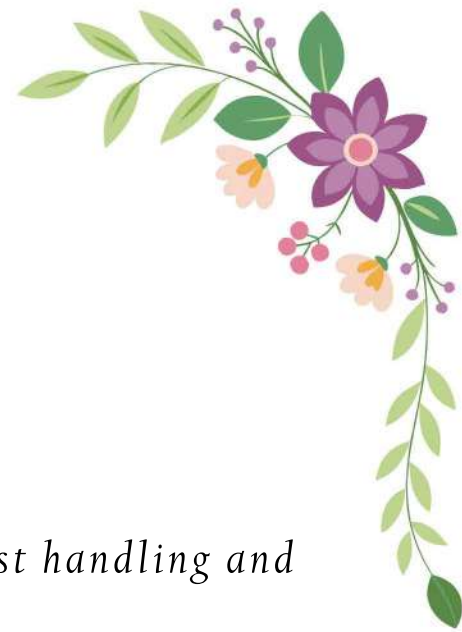

Our farms are located in prime floriculture zones, enabling year-round production of premium flowers.

We export to GCC, Europe, and Asia-Pacific regions and adhere to strict quality and sustainability standards.

Steps we follow:

- *Cultivation – growing flowers in our own greenhouses/farms.*
- *Harvesting & Grading – selecting and sorting flowers by quality.*
- *Post-harvest Handling – cooling, trimming, and bunching in-house.*
- *Packaging – using branded, export-grade boxes.*
- *Cold Chain Logistics – maintaining temperature-controlled transport to the airport.*
- *Export & Distribution – directly supplying to international wholesalers or retailers.*

Packaging & Cold Chain

We maintain the highest standards of post-harvest handling and logistics to ensure freshness and longevity.

- Pre-cooled to 2–4°C within 30 minutes of harvest*
- Custom labeling and packaging per importer requirements*
- Export-grade corrugated boxes with branding*
- Air cargo-ready pallets for international transport (On request)*

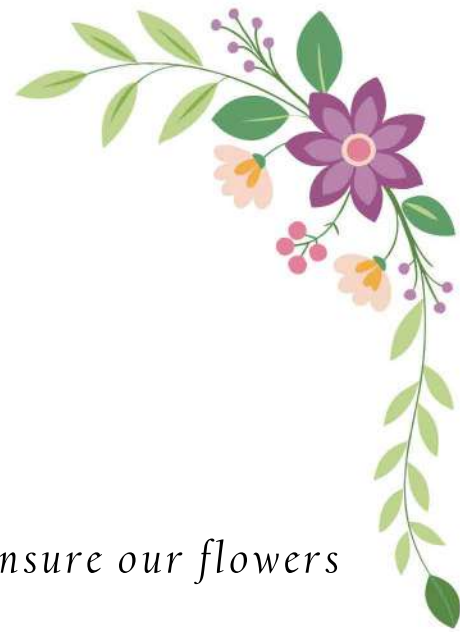

Farm & Infrastructure

Our farms cover over 20 acres of polyhouse and open-field cultivation, equipped with drip irrigation, automated greenhouse systems, and skilled floriculturists. We emphasize sustainability through rainwater harvesting, eco-friendly fertilizers, and energy-efficient processes.

Export Reach / Global Markets

We export fresh flowers to the Middle East, Europe, and Southeast Asia. Our logistics network ensures farm-to-flight within 24 hours. Partner airlines include Emirates SkyCargo, Air Astana, Air India Cargo, and Qatar Airways and many more

Quality Commitment

We follow strict quality assurance protocols to ensure our flowers meet international standards.

All shipments comply with phytosanitary regulations and GLOBALG.A.P. guidelines. Each batch is graded, packed, and shipped within 24 hours of harvest.

Sustainability & Community Impact

Our farms operate on eco-friendly principles — minimal pesticide use, organic fertilizers, and water recycling.

We empower local communities by employing rural women and supporting nearby schools and healthcare initiatives.
